ABOUT ME

I am a Computer Science student at GISMA University in Berlin, with intermediate experience in Python and C++. I have a strong interest in software development and am continuously building my technical skills through academic coursework, self study, and hands on practice. I am particularly focused on developing a solid foundation in programming, problem solving, and system level understanding, while exploring areas such as Linux and DevOps. I enjoy writing clear, efficient code and take a structured approach to learning new technologies.
